

⊖ efficiency of reconstructing a positron 0 GeV to 1 GeV      ⊖ efficiency of reconstructing a positron 1 GeV to 2 GeV

Θ efficiency of reconstructing a positron 1 GeV to 2 GeV

Θ efficiency of reconstructing a positron 2 GeV to 3 GeV

⊖ efficiency of reconstructing a positron 3 GeV to 4 GeV

Θ efficiency of reconstructing a positron 4 GeV to 5 GeV

Θ efficiency of reconstructing a positron 5 GeV to 6 GeV

⊖ efficiency of reconstructing a positron 6 GeV to 7 GeV

Θ efficiency of reconstructing a positron 7 GeV to 8 GeV

Θ efficiency of reconstructing a positron 8 GeV to 9 GeV

Θ efficiency of reconstructing a positron 9 GeV to 10 GeV

Θ efficiency of reconstructing a positron 10 GeV to 11 GeV

Θ efficiency of reconstructing a positron 11 GeV to 12 GeV
